KNX - DALI - Conventional White-Range Presence Sensor

Smart Home

Lighting / Dimming
With Interra, your mechs are in an age of enlightenment. You can provide the lighting systems you want in your spaces perfectly.

Air Conditioning
Irregular heating and cooling are the situations that cause the most energy loss. With Interra air-conditioning solutions, you can determine the active working time of your home's heating and cooling processes. You can save money thanks to the air conditioning system that blends perfectly with your home.

Scenarios
All the scenarios you set at the exit or entrance of the house are started with a single touch. You can also create the scenarios you want to realize based on time, so you can enjoy the comfort you desire within the time you set.

Mobile Control

Shutter / Blind
By controlling your curtains / blinds on the touch panel, you can bring your spaces to life.

Mobile Solutions
It develops software on every platform for Interra users, allowing you to control automation, concierge / services, alarm and other capabilities from your smartphones, iPad or even iWatch device. While controlling smart life and comfort from where you live, security messages and warnings are sent to your mobile phone even when you are not at home.

Security System

- Cameras
- Burglar alarm sensor
- Fire alarm sensor
- Glass break / break sensor
- Gas break sensor
- Emergency health alarm sensor
- Voip
- Sip
- Face Recognation
- Card Pass
- Call Forwarding
- Logging

Sip / Voip Based Communication
With the IP-based phone and video iControl in front of the building, you can see the guests coming to your door via Interra Touch Panel and communicate if you wish.

Concierge and Residence Services

The services menu offers you the key to the solution of all the problems you may have at home. These services are called through Interra panels or by Interra mobile applications and instant information is transmitted to the lobby, reception or building management
